Steps to Apply License on a Cambium PTP 820 Radio

Support Team - 2016-12-16 - Comments (0) - Cambium Networks

Login to the Radio and enter into the Activation Key page as stated below:

To enter a new activation key: **Select Platform > Activation Key > Activation Key Configuration.**

The Activation Key Configuration page opens (as shown below)

Enter the activation key cipher you have received from cambium in the Activation Key field. The activation key cipher is a string that enables all features and capacities that have been purchased for the unit.

Set the Demo admin to "Disable"

Click Apply.
